

MATERIAL SAFETY DATA SHEET

Section 1 - Identification

Product identifier	Fmoc-gamma-Glu(OtBu)-Gly-OH
Catalog No.	AS4075
Other identifiers	Structure-confirmed gamma-glutamyl-glycine derivative; glutamate alpha-carboxyl tert-butyl ester
Recommended use	Laboratory research, peptide synthesis, protected-fragment coupling and research-use applications.
Restrictions on use	For research use only. Not for human or veterinary use, therapeutic use, diagnostic use, food, household, or consumer applications.
Responsible party	Alan Scientific Inc.
U.S. address	9031 Shady Grove Court, Gaithersburg, MD 20877 U.S.
Contact	+1 888-757-1116 contactus@alanscientific.com www.alanscientific.com
Emergency telephone	+1 888-757-1116

Section 2 - Hazard(s) Identification

OSHA HCS classification	No substance-specific OSHA HCS hazard classification has been established from the information currently available.
Signal word	Not assigned
Hazard statements	No product-specific GHS hazard statements assigned. Chemical and toxicological properties have not been fully characterized.
Pictograms	None assigned based on currently available substance-specific information.
Precautionary statements	Avoid breathing dust. Avoid unnecessary skin and eye contact. Wash thoroughly after handling. Wear suitable gloves and eye protection. Use adequate ventilation.
HNOC	No additional hazards known from currently available information.
Unknown acute toxicity	No quantitative product-specific acute toxicity data available.

Section 3 - Composition / Information on Ingredients

Substance / mixture	Substance
Chemical name	Fmoc-gamma-Glu(OtBu)-Gly-OH
Structural description	Gamma-linked Glu-Gly; glutamate alpha-carboxyl protected as tert-butyl ester; glycine carboxyl free
CAS No.	No verified CAS identified for this exact gamma-linked structure
Molecular formula	C ₂₆ H ₃₀ N ₂ O ₇
Molecular weight	482.53 g/mol
Purity / concentration	Product-specific; refer to Certificate of Analysis (COA).
Hazard-contributing impurities	No product-specific hazard-contributing impurities identified in the information reviewed.

Section 4 - First-Aid Measures

Inhalation: Move to fresh air. Obtain medical attention if symptoms occur or persist. Skin contact: Remove contaminated clothing and wash thoroughly with soap and water. Eye contact: Rinse cautiously with water for several minutes; remove contact lenses if present and easy to do. Continue rinsing and obtain medical advice if irritation persists. Ingestion: Rinse mouth. Do not induce vomiting unless directed by medical personnel. Obtain medical advice if unwell. Treat symptomatically and supportively.

Section 5 - Fire-Fighting Measures

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide as appropriate for the surrounding fire. Specific hazards: Carbon oxides and nitrogen oxides may form during combustion or thermal decomposition. Firefighter protection: Wear self-contained breathing apparatus and appropriate protective equipment when conditions warrant.

Section 6 - Accidental Release Measures

Avoid dust formation and inhalation. Provide ventilation and use appropriate personal protective equipment. Collect dry material carefully without generating dust and place in a suitable closed container for disposal. Prevent unnecessary release to drains or the environment.

Section 7 - Handling and Storage

Handle using good laboratory practice. Avoid inhalation of dust and unnecessary contact with skin and eyes. Keep container tightly closed and protect from contamination and moisture. Store under conditions specified on the product label and lot-specific COA. Keep away from incompatible materials such as strong oxidizing agents unless product-specific data indicate otherwise.

Section 8 - Exposure Controls / Personal Protection

Occupational exposure limits	No substance-specific OSHA PEL or ACGIH TLV identified in the information reviewed.
Engineering controls	Use general laboratory ventilation; local exhaust is appropriate where dust is generated.
Eye / face protection	Safety glasses or suitable chemical splash protection.
Skin / body protection	Suitable chemical-resistant gloves and laboratory clothing.
Respiratory protection	Normally not required under controlled handling; if dust is generated and ventilation is insufficient, use an appropriate NIOSH-approved particulate respirator.
Hygiene measures	Wash hands after handling. Do not eat, drink or smoke in chemical handling areas.

Section 9 - Physical and Chemical Properties

Physical state	Solid
Appearance	Lot-specific; refer to Certificate of Analysis where available
Odor	No data available
pH	No data available
Melting point	No validated Alan Scientific lot-specific value assigned in this MSDS
Boiling point / range	No data available
Flammability	No data available
Flash point	No data available
Vapor pressure	No data available
Density / relative density	No data available
Solubility	Product-specific; consult technical data/COA if available
Partition coefficient	No data available
Molecular weight	482.53 g/mol

Section 10 - Stability and Reactivity

Reactivity: No comprehensive product-specific reactivity data available. Chemical stability: Expected to be stable when handled and stored according to the product label and COA. Hazardous reactions: No hazardous polymerization is known. Conditions to avoid: Excessive heat, moisture where relevant, and conditions inconsistent with recommended storage. Incompatible materials: Strong oxidizing agents unless product-specific data indicate otherwise. Hazardous decomposition products: Carbon oxides and nitrogen oxides may form during combustion or thermal decomposition.

Section 11 - Toxicological Information

Likely exposure routes	Inhalation of dust, eye contact, skin contact and ingestion.
Acute toxicity	No product-specific numerical LD50/LC50 data available.
Skin corrosion / irritation	No product-specific data available. Avoid unnecessary contact.
Eye damage / irritation	No product-specific data available. Avoid eye contact.
Respiratory / skin sensitization	No data available.
Germ cell mutagenicity	No data available.
Carcinogenicity	Not identified here as a listed carcinogen by IARC, NTP or OSHA based on currently reviewed information.
Reproductive toxicity	No data available.
STOT - single exposure	No data available.
STOT - repeated exposure	No data available.
Aspiration hazard	Not applicable to the supplied solid based on available information.
Additional information	Chemical and toxicological properties may not be fully characterized. Handle using good laboratory safety practice.

Section 12 - Ecological Information

Ecotoxicity: No complete product-specific data available. Persistence / degradability: No data available. Bioaccumulation: No data available. Mobility in soil: No data available. Avoid unnecessary environmental release.

Section 13 - Disposal Considerations

Dispose of product, residues and contaminated packaging in accordance with applicable federal, state and local requirements. Do not mix with incompatible waste streams. Handle uncleaned containers as product residue.

Section 14 - Transport Information

Transport status	No dangerous-goods transport classification identified from the information currently available; verify shipment-specific and carrier requirements.
UN number	Not assigned in this document.
Proper shipping name	Not assigned.
Hazard class	Not assigned.
Packing group	Not assigned.
Environmental hazards	No transport-specific environmental classification assigned in this document.
Special precautions	Use secure, closed packaging appropriate for laboratory chemicals and verify carrier requirements before shipment.

Section 15 - Regulatory Information

OSHA HCS	Prepared with consideration of the OSHA Hazard Communication Standard (29 CFR 1910.1200). No substance-specific classification is assigned beyond the information supported by currently available data.
Other regulatory considerations	Users and importers are responsible for confirming TSCA, state, local and jurisdiction-specific requirements for the specific transaction and use.

Section 16 - Other Information

Revision	2.0
Date of preparation / revision	2026-09-06
Revision summary	Updated after structural confirmation of AS4075. The gamma-linked Glu-Gly connectivity and glutamate alpha-carboxyl tert-butyl ester are now specified; no CAS is assigned without a verified registry match for this exact structure.
Data / assessment basis	Alan Scientific product information and the supplied AS4075 structural drawing. Public records for the conventional alpha-linked constitutional isomer were reviewed only to prevent identity/CAS misassignment and were not used to transfer product-specific hazard classification.

Safety information notice: Information is provided in good faith for safe handling of the supplied research material and is based on information reasonably available as of the revision date. It is not a product specification or warranty. Users are responsible for determining suitability, controls and regulatory obligations for their specific use.
